## PROFESSIONAL SUMMARY

Recent Computer Science graduate (First Class Honours) with hands-on experience building full-stack web applications using JavaScript, Node.js, Express, and PostgreSQL. Comfortable working across the stack, from responsive front-end interfaces to authenticated back-end APIs and relational database design. Fast learner with a project-driven approach, seeking a junior software developer role to grow within a professional engineering team.

---

## TECHNICAL SKILLS

**Languages:** JavaScript, SQL, PHP, HTML, CSS

**Frameworks and Libraries:** Node.js, Express, Bootstrap, EJS

**Databases:** PostgreSQL

**Developer Tools:** Git, GitHub, npm, VS Code, Passport.js, Express Validator, dotenv

---

## PROJECTS

### ThreadVault - Clothing Store Inventory Management App

HTML, CSS, JavaScript, EJS, Node.js, Express, PostgreSQL, Express Validator, dotenv, Git, GitHub, npm, VS Code

[github.com/Matthew1835/ThreadVault-inventory](https://github.com/Matthew1835/ThreadVault-inventory)

- Built a full-stack inventory management application for tracking clothing products, categories, and stock levels
- Designed a relational PostgreSQL database schema to model products, categories, and inventory relationships
- Implemented server-side form validation with Express Validator to maintain data integrity across create and update operations
- Built dynamic, server-rendered views with EJS templating for a clean, responsive admin interface
- Managed environment configuration securely using dotenv and version-controlled the project with Git and GitHub

### Members Only - Club Messaging Application

HTML, CSS, JavaScript, EJS, Node.js, Express, PostgreSQL, Passport.js, express-session, connect-pg-simple, bcrypt, Express Validator, dotenv, Git, GitHub, npm, VS Code

[github.com/Matthew1835/members-only](https://github.com/Matthew1835/members-only)

- Developed a members-only messaging platform with tiered, role-based permissions for members and admins
- Implemented secure authentication using Passport.js with bcrypt password hashing and express-session for session management
- Persisted user sessions in PostgreSQL using connect-pg-simple for reliable, scalable session storage
- Applied Express Validator for robust server-side input validation on registration and message forms
- Designed and queried a PostgreSQL database to manage users, messages, and membership status

### Garrison Bar & Restaurant - Responsive Static Website

HTML, CSS, JavaScript, Webpack, GitHub

[github.com/Matthew1835/garrison-bar-n-restaurant](https://github.com/Matthew1835/garrison-bar-n-restaurant)

- Built a fully responsive static website showcasing a modern dining and bar experience across three dedicated pages
- Presented the restaurant's brand, menu offerings, and story with a clean, mobile-friendly layout
- Bundled and optimized front-end assets with Webpack for faster load performance
- Focused on smooth user experience and cross-device consistency using semantic HTML and modern CSS

---

## EDUCATION

**Bachelor of Science, Computer Science - First Class Honours**

University of Sunderland

**Feb 2025 - Jan 2026**

---

## SOFT SKILLS

Problem-Solving | Communication | Team Collaboration | Adaptability | Attention to Detail | Time Management

---

## LANGUAGES

Burmese (Native) | English (Advanced) | Thai (Beginner)
